

ORDINANCE NO. 2026-10

**AN ORDINANCE TO AMEND CHAPTER 18 - WATER OF
THE MUNICIPAL CODE OF THE CITY OF IRONDALE, ALABAMA**

NOW, THEREFORE, BE IT ORDAINED by the City Council of the City of Irondale, Alabama, in regular meeting duly assembled, a quorum being present, as follows:

Section 1. MODIFICATION OF CHAPTER 18 - WATER. Chapter 18 of the *Municipal Code of the City of Irondale, Alabama* is hereby amended by deleting Chapter 18 in its entirety and replacing it with the following:

Chapter 18 WATER

Sec. 18-1. Definitions applicable to Chapter.

City means the mayor or mayor and council of the city acting from time to time by and through its duly authorized agents and employees.

Customer means any party who receives water service from the city or who is legally or equitably responsible under either an express or implied contract requiring such party to pay the city for such service and is a lessee, occupant, or owner of a property.

Lessee or tenant is any party who occupies a property pursuant to a lease of the property from the Owner.

Occupant is any party who is not a lessee or owner of a property, but who has a legal right of possession of a property.

Owner is any party who is the legal owner of the premises served and the property is occupied by a customer other than the owner.

Responsible party shall be the occupant, tenant and/or the owner (if charges are not paid by the occupant or tenant of the premises served).

Service connection is a pipe used to supply a single premises only, which is installed between the distribution system mains of the city and the meter, or between the main and the right-of-way if the meter is not installed at the right-of-way.

Service line is a physical pipe used to transport water (i) from the water meter to the building connection or (ii) from the water main to the meter.

Sec. 18-2. Superintendent of water system.

- (a) The mayor of the city shall act as the superintendent of the city water utility system and shall oversee such system.
- (b) In addition to the salary now fixed and paid to the mayor, there shall be paid to the mayor for his services as superintendent of the utility system named in subsection (a) above, a salary of \$50,000.00 per annum in the sum of \$4,166.67 per month payable on the first day of each calendar month out of the receipts of such utility system.
- (c) The superintendent of the water system shall administrate the following:
 - (1) All purchases authorized by the city council;

- (2) Meter readings and billings for service and collection; and
- (3) Proper repair and operation of the system.

Additionally, the superintendent shall have a current inventory showing the supplies and equipment on hand for such system; a current monthly financial statement of all system operating costs and receipts; a Proper inventory of the physical assets of such system. The superintendent shall also be prepared to give all such data and information relative to such system to the city council on its first meeting in each calendar month.

Sec. 18-3. Rules and regulations governing the provision of water service by the city.

- (a) The rules and regulations set forth in this Chapter shall govern the rendering of water service by the city, including any extensions and connections thereto, and every customer, upon the signing of an application for water service and/or upon the taking of water service, shall be bound thereby.
- (b) All determinations, decisions, estimates or matters of judgment of any sort referred to herein shall be made by the city and shall be conclusive and binding upon every customer.
- (c) The city shall provide water pressure at the meter in accordance with ADEM requirements. The city does not guarantee a uniform pressure or an uninterrupted supply of water. Customers must provide sufficient storage of water for an uninterrupted water supply to be possible.
- (d) The city reserves the right to shut off the water from any main without notice and when necessary, for the purpose of making repairs, connections, or for any other purposes. The city shall not be responsible for damage to any customer's property caused by shutting off the water, or by resumption of water service without notice after such interruptions.
- (e) The city reserves the right to discontinue water service to a property for a violation by the customer of any of the rules and regulations of the city.
- (f) The city reserves the right to alter, amend, or add to these rules and regulations or to substitute other rules and regulations therefor at any time. Such actions shall be conclusive and binding upon every customer from the effective date of such action.

Sec. 18-4. Applications for water service.

- (a) All persons (or their authorized agent(s)) desiring water service through an existing service connection shall make application in writing at the Water Department on forms supplied by the city, provide proper documentation required by the city to prove residency, and meet all applicable requirements of this Chapter. All property owners or lessees/occupants, as applicable, must sign the application for service to a property location.
- (b) Any change in the identity of the customer(s) on a property will require the submission of a new application for water service. The city may, after reasonable notice, discontinue the water service to the property until such new application has been duly submitted and accepted by the Water Department and all applicable requirements of this Chapter have been met.
- (c) Receipt by the city of an application for new water service shall not obligate the city to provide such service if the service applied for cannot be supplied by the city (i) in accordance with this Code, the applicable regulations of the city and/or other public authorities, or (ii) due to the physical limitations of the city's water distribution system, all to be determined at the sole discretion of the city.

- (d) Each application for water service on a new or existing connection to the city’s water system shall be accompanied by the payment of the appropriate fees as outlined in the Water Rate and Fee Schedule adopted pursuant to Sec. 18-7. These fees may include, but are not limited to, application fees, account establishment fees, capital recovery fees, deposits, and inspection fees. The costs for materials, meters, and labor for connections shall be the sole responsibility of the applicant.

Sec. 18-5. Capital recovery fees.

- (a) *Defined. Capital Recovery Fees* means a contribution of capital by new customers towards existing or planned facilities necessary to meet the needs of new customers and which shall only be utilized by the city for improvements to the water system.
- (b) *Capital Recovery Fee established - Generally.* The owner of any property (except as categorized in (c) or (d) of this section) who/which connects any property to the water system, including private fire lines, shall pay, upon establishment of account, a non-refundable Capital Recovery Fee in the amount set forth in the Water Rate and Fee Schedule adopted pursuant to Sec. 18-7.
- (c) *Multiple Units.* In the case of facilities that contain multiple units on the property, Capital Recovery Fees shall be paid per unit as set forth in the Water Rate and Fee Schedule and as calculated in Sec. 18-5(d) below.
 - (1) A “unit” shall be defined as a structure having a roof supported by columns or walls for the shelter, support, or enclosure of persons; and when supported by a division wall from the ground up without ingress and egress provided between such division by suitable openings, each portion of such building so divided shall be deemed a separate unit.
 - (2) For residential purposes, any portion of a building used as a separate abode for a family shall be considered a “unit.”
 - (3) For healthcare purposes, the number of beds used in a facility shall be considered a “unit.”
 - (4) For commercial and industrial purposes, any portion of a building used for the operation of a separate business shall be considered a “unit.”
- (d) *Hotels/motels, apartments, nursing homes/assisted living facilities and hospitals.* The owner of any property who/which constructs multiple units (as defined in Sec. 18-5(c) above) on such property in any of the types of facilities described below in this subsection (d) and connects said property to the water system shall pay a nonrefundable Capital Recovery Fee in an amount determined by multiplying the number of units by the Capital Recovery Fee for a 3/4” line in the Water Rate and Fee Schedule adopted pursuant to Sec. 18-7 by a multiplier determined based upon the type of facility to be constructed as shown below. Capital Recovery Fee for multiple units is payable prior to issuance of building permits for construction of said property. This capital recovery fee is in addition to other fees and deposits.

- Hotels/Motels – 0.59
- Apartments – 0.77
- Nursing Homes/Assisted Living Facilities – 0.33
- Hospital – 1.02

Sec. 18-6. Deposits for Water Service.

- (a) Each applicant for water service shall pay to the city a deposit as a guarantee for payment of services provided and for other expenses related thereto. The deposit amount required shall be as shown on the Water Rate and Fee Schedule adopted pursuant to Sec. 18-7.

- (b) If any customer (i) uses water from the city's water system in excess of the customer's deposit for two-consecutive months and (ii) has three delinquencies in the immediately preceding twenty-four months, the city may require such customer to increase the deposit for water service to an amount equal to two times the average of the customer's bills for the prior twelve month period. A failure to promptly pay the increase in deposit herein specified within ten days after written demand by the city shall be just cause for terminating service to the customer.

Sec. 18-7. Water Rate and Fee Schedule.

- (a) *Establishment of Water Rate and Fee Schedule.* The rates for water service and other services furnished by the city shall be as known as the "Water Rate and Fee Schedule" and shall be adopted by the City Council of the City of Irondale via resolution.
- (b) *Annual Adjustment in Fees.* Effective January 1, 2027, and at the beginning of each calendar year thereafter, the amounts set forth in the Water Rate and Fee Schedule adopted by the city council will be amended to reflect the greater of (i) a 2% increase or (ii) the percentage change in the Consumer Price Index for all Urban Consumers – South Urban Region as published by the United States Department of Labor, Bureau of Labor Statistics for the most recent 12-month period available.
- (c) *Violation – Penalties.* The city has the authority to take all measures, criminal and/or civil, allowed by law to seek reimbursement for any reduction in utility rates achieved based on intentional misrepresentation, fraud, or deceit, and to seek any and all other penalties available under the law.

Sec. 18-8. Billing.

- (a) The city shall issue water bills on a monthly basis pursuant to the rates shown in the Water Rate and Fee Schedule adopted by City Council.
- (b) The invoice date shall be the first day of the month for the billing cycle. Monthly water bills are due 16 days following the invoice date. If payment is not made in full on or before the 16th day, a late payment fee shall be applied pursuant to the Water Rate and Fee Schedule. If payment is not made in full on or before the final day of the invoice month, a delinquent fee shall be applied as shown in the Water Rate and Fee Schedule and the city may, at any time thereafter discontinue the water service to the customer. Following the 15th day of the month during which the service is discontinued, the city will apply the customer's deposit collected under Sec. 18-6 to the outstanding balance due on the account, and the account will be closed.
- (c) Whenever an account is considered delinquent for nonpayment, a delinquency fee, as shown in the Water Rate and Fee Schedule, shall be paid by the customer before service is reconnected by the city.
- (d) All bills due to the city are payable only at the Water Department. No field service employee is authorized to accept payments.
- (e) Bills and notices will be mailed and/or emailed to the customer's last address as shown by the records of the city and as recorded on the application of the customer for water service. Failure to receive any bill or notice shall not relieve the customer of any responsibility under these rules and regulations and shall not act to extend time of payment of any bill due.

Sec. 18-9. Leak Adjustment; Payment Plan Schedule.

(a) Leak Adjustment.

The customer may receive an adjustment for water leaks on the customer's side of the meter based upon an average as provided in this section. The average for the adjustment will be the customer's seasonal average appropriate for the time of the leak. If the customer's average has not been established, an average of 6,000 gallons will be assumed from November 1 through April 30 and an average of 8,000 gallons will be assumed from May 1 through October 31.

To qualify for a leak adjustment, the customer must submit a written request for an adjustment to the Water Department on the Leak Adjustment Form along with proof of said leak. Proof can be supplied through providing photographic evidence of the leak plus a receipt from a plumber who repaired the leak or a receipt from a store showing proof of purchase of material to fix the leak. The Leak Adjustment Form can be found on the City's website or from the Water Department. A customer is only eligible for this adjustment once every five (5) years beginning on the date of the last leak adjustment.

Adjustments must be submitted within one (1) month of the leak being repaired. Any adjustment submitted after one (1) month will not be considered. All adjustments shall be approved by the Water Superintendent, or his designee. No adjustments will be provided if appropriate building permits and business license have not been obtained and city inspection has not been conducted.

Leak adjustments will be made from the period when the leak started to two weeks after the customer became aware of the leak. The adjustment time will not exceed two billing periods.

During the time a customer's account is being reviewed for a potential adjustment, the customer shall make average payments towards such customer's water bill and a note will be placed on the account to avoid disconnection due to a delinquent bill.

After the adjustment has been approved and the customer has been notified in writing, the customer will be permitted, upon written request to the Water Department received within five (5) business days following the date of the letter of notification, to pay the remaining amount due on a payment plan schedule as set forth in subsection (b) below.

(b) Payment Plan Schedule.

A customer approved for a Leak Adjustment or a Payment Plan shall pay in accordance with the following schedule:

<i>Monetary amount of bill being adjusted:</i>	<i>Time period to pay as calculated beginning the day the adjustment is approved by the city:</i>
\$150.00 - \$500.00	Three (3) months
\$501.00 - \$850.00	Six (6) months
\$851.00 - \$1,200.00	Nine (9) months
\$1,200.00+	Twelve (12) months

The adjusted amount owed shall be calculated as follows: the bill amount being adjusted divided by the months for repayment.

While on a payment plan schedule, a customer(s) must pay their current water bill and the payment plan amounts on time. Failure to do so may result in the full balance being due.

(c) *Late Fee Adjustment.*

An account shall be eligible for a late fee waiver once every five (5) years. If the customer moves to another residence serviced by the city's water system, the customer's account late fee adjustment timeline shall not reset, but shall continue to customer's new residence.

Sec. 18-10. Collections.

If a closed account has a remaining balance following thirty (30) days after a customer is sent a final bill, the account may be turned over to collections.

Sec. 18-11. Meters.

- (a) The city shall approve the type and size of meter to be installed.
- (b) All meters shall be removed and/or maintained only by the city, and shall remain property of the city except as herein provided.
- (c) Meters will be maintained by the city, at its expense, for ordinary wear and tear, but damage arising out of or caused by the negligence, carelessness or willful misconduct of the customer shall be paid for by the customer.
- (d) Once installed, no meter shall be tampered with, reconnected, or removed without the consent of the city. Tampering fees shall be charged as shown on the Water Rate and Fee Schedule adopted pursuant to Sec. 18-7.
- (e) Meters will be set in meter boxes or vaults placed as near as possible to the right-of-way, except where the city has given special permission for meters to be installed in a location other than the right-of-way.
- (f) The customer shall promptly notify the city of any defect in or damage to the meter or its connections.
- (g) Meters shall not be located in driveways or parking areas, and when driveways or parking areas shall be established in the area where a meter or group of meters is located, such meter or meters shall be moved from driveway or parking area at the expense of the property owner. The city may refuse to render service through said meter(s) after proper notice until brought in compliance with this chapter.
- (h) Multiple unit facilities shall typically be served with one meter with the entire facility being master metered. This requirement may be removed on a case-by-case basis as approved by the Water Department. In such cases, the minimum charge (3/4" for residential including apartments, 1" for commercial) will be applied to each of the premises as if they were supplied through separate lines and separate meters; however, that the minimum charges on this basis shall not apply unless they are higher than the minimum charges ascertained by meter size in the Water Rate and Fee Schedule. Multiple minimum charges shall apply to multi-tenant commercial, apartments, duplexes, etc. Any submetering shall be the responsibility of the responsible party.

Sec. 18-12. Service connections; Taps to mains.

- (a) All taps made to the mains of the city and any installation of a service line between a tap and a meter shall be performed only by a general contractor licensed in the State of Alabama with an MU certification and approved by the city to perform work on the city's water system. The city will inspect all taps on city water mains following installation. It will be the applicant's responsibility to furnish, install and pressure check all connections. General contractors wishing to perform work on

the city's water system shall make application at the Water Department for inclusion on the approved contractors list for work associated with any line extension.

- (b) All materials used for service connections and taps to the mains shall comply with city regulations.
- (c) The customer shall be solely responsible for all costs and expenses incurred in making taps and installing service connections and service lines between a tap to the water main and a meter. The city will provide the meter/vault to the customer at the customer's sole cost and expense.

Sec. 18-13. Customer service lines and fixtures.

- (a) The service line from the meter to the building connection will be owned by the customer and will be installed by and at the expense of the customer.
- (b) No person except an employee of the city or a person specifically authorized by the city is permitted to turn the water on or off at the meter.
- (c) The city shall not be liable for any damages to the customer's service line, plumbing, fixtures, or property alleged to be caused by high pressure, by low pressure, or by fluctuation(s) of pressure. It is the responsibility of the customer to provide, at the customer's expense, any regulating devices or appurtenances required to adjust the pressure carried in the water main serving such customer's premises to a pressure suitable for the customer's requirements.
- (d) The city shall have the right, but shall not the obligation, to inspect any customer service line installation or plumbing system (i) before water service is furnished or (ii) at any later time. The city reserves the right to refuse to utilize or to continue service to any customer service line, plumbing or other installation that is not in accordance with this Chapter or with any other requirement of the city.
- (e) Any failure to inspect, accept, or reject a customer's service line installation or plumbing system shall not render the city liable or responsible for any loss or damage which might have been avoided, had such inspection, acceptance, or rejection been made.
- (f) Each service line must, at the expense of the owner thereof, be provided with an appropriate back-flow preventer in accordance with the city's Cross Connection Policy.

Sec. 18-14. Main extensions.

Main extensions are the responsibility of the customer desiring the extension, and the cost will be borne by the customer. Ownership of said extension will become the city's, at the city's option, upon approval by resolution of the city council. Placement of, construction plans for, material quality for, and inspections of the construction of such main extensions shall be pursuant to city regulations, standard practices, and policies. All main extensions must be installed by a contractor on the City Approved Contractor List as set forth in Sec. 18-15.

Sec. 18-15. Approved Contractors.

Contractors installing taps to the main, water mains, and main extensions for development must be approved in advance by the city. The city will consider all requests for approval on a case-by-case basis. The city may require additional information from applicants or establish additional requirements as is deemed necessary by the city to maintain the quality of the facilities being installed and the integrity of

the city's water system. Contractors seeking to be approved may do so by filing a written request with the city and complying with each of the following:

- (i) Submit a valid Alabama General Contractors License with an MU certification for utility construction.
- (ii) Provide a General Liability insurance policy of at least \$2,000,000 naming the city, its agents, employees, officials, engineers, and representatives as additional insureds on the policy. Waiver of subrogation as to the additional insured shall also apply. A copy of the Contractor's certificate proof of insurance must be on file with the city before work begins.
- (iii) Possess no outstanding claims of any kind nor have a history of substandard work for other projects installed on a water system.
- (iv) Provide 3 references for utility installation on other projects performed by contractor within the last 3 years.

Contractors approved by the city as provided pursuant to this Sec. 18-15 will be placed on the City Approved Contractor List.

Sec. 18-16. Private fire service connections.

- (a) Private fire service connections supplying water for the extinguishment of fire, whether through private hydrants or a fire suppression system, shall be made only upon written application to the city by the owner or owner's agent or the occupant of the premises to which such service is to be provided.
- (b) All new private fire service connections shall be metered. No water may be taken through existing, non-metered private fire service connections, except for the extinguishment of a fire or for testing purposes. In case of testing, the customer shall schedule the testing with the Water Department at least ten (10) days prior to said testing. On a case-by-case basis, a meter for private fire service may also supply domestic water to a premises.
- (c) On existing, non-metered fire lines, the city reserves the right to require the customer to install, at the customer's expense, a detector device or devices approved by the city to monitor the unauthorized use of water through the private fire service connection, and to charge for such water use at regular rates, and to require that use of water through said private fire service connection be discontinued, except as provided in subsection (d) below.
- (d) Once unpermitted water usage through a private fire service connection is discovered by the city, whether a leak on the fire system, an illicit connection to the fire system, unauthorized testing, etc., the city will notify the customer in writing of the unpermitted usage. Once written notice is given, the customer shall correct the unauthorized usage within 45 days. If the unauthorized usage is not corrected within 45 days of notice from the city, customer will be required to install and pay all costs for a meter on the private fire service connection so that all usage can be metered and billed accordingly. An approved backflow prevention device shall be maintained or installed when a meter is added. Continued usage of unmetered water through a private fire service connection may result in the disconnection of the connection from the water system.
- (e) Only one private fire service connection shall be made to a single premises unless specifically authorized by the city. If more than one private fire service connection is authorized, the city reserves the right to approve the design of connections and protective devices to be installed at the customer's expense.

- (f) Metered private fire service connections serving private fire hydrants or fire suppression system shall be charged monthly fees in accordance with the Water Rate and Fee Schedule adopted pursuant to Sec. 18-7. Non-metered fire protection systems shall be charged a monthly fee according to the back flow preventer size per the Water Rate and Fee Schedule. In the case where no backflow exists, the fee shall be based on the size of the connection to the city's water system.

Sec. 18-17. Premises served by separate meter; Multiple premises.

- (a) All premises shall be served by a separate meter, except as provided in subsection (b) below.
- (b) Each premises shall have a separate meter, except when, due to the arrangement of the piping and as approved by the city, multiple premises are served through a single meter. Only with special permission of the city, may multiple premises be served by a single meter. When two or more premises are supplied through one service pipe, one party must assume responsibility for full payment of the water usage for all premises so supplied. Should any party fail to pay the charge when due, or violate any rules of the city, the city may discontinue service to all premises until the bill has been paid or the rules complied with.

Sec. 18-18. Cross Connection Policy.

All connections to city mains shall be in compliance with city's written cross connection policy. The city's water superintendent is hereby given the authority to adopt, implement, and enforce such policy.

Sec. 18-19. Wells.

- (a) No person shall dig, construct, extend or enlarge any water well until such person has secured a permit for such digging, construction, extension or enlargement in the manner provided for in this chapter. All wells shall be constructed in accordance with ADEM drinking water standards (ADEM 335-7-5) for groundwater wells and shall be consistent with the city's Source Water Assessment Program.
- (b) Any person desiring to dig, construct, extend, enlarge, install or maintain any well in the city, before commencing work on such well, shall make application in writing to the water system on such forms and in such manner as may be prescribed by the water system.
- (c) Such application shall set forth complete and accurate information concerning the size, depth, location, approximate capacity, ownership and proposed use of such well (including whether it shall be used for domestic or industrial purposes or both); the distance from the proposed well to any and all dwellings, buildings or premises to be supplied with water from such well; the name of the licensed well driller who shall be digging, constructing, extending, or installing the well; the manner in which and the person by whom the digging, constructing, extending, enlarging or installing of the well is proposed to be done; the depth to which the well is proposed to be extended; the description of the property upon which such well is to be located and the name of the person holding legal title thereto; the place or manner in which any surplus or overflow from such well is to be discharged; whether such well has been approved by the county and state health departments and the city's water system; that the applicant has obtained all necessary approvals from ADEM; and all other pertinent information concerning such well.
- (d) The application shall be subscribed and sworn to by the person owning the premises on which the well is presently existing or proposed to be located, and it shall be unlawful for such person to make any false or misleading statement in such application.

- (e) No permit shall be issued to dig, construct, extend, enlarge, maintain or install in the city a well which has a depth of more than seventy-five (75) feet or for the digging, construction, extension, enlargement, maintenance or installation of any well where the proposed digging, construction, extension, enlargement, maintenance or installation would result in such well having a depth of more than seventy-five (75) feet. Depth shall be measured from the ground line adjoining such well.

Sec. 18-20. Water Resources, Conservation, and Emergency Plan.

All use of water by customers of the city's water system shall be in compliance with the city's Water Resources, Conservation, and Emergency Plan. A copy of this Plan can be obtained from the Water Department.

Secs. 18-21—18-25. Reserved.

Section 2. ORDINANCES REPEALED. All ordinances or parts of ordinances in conflict herewith are hereby repealed.

Section 3. SEVERABILITY. That if any section, subsection, sentence, clause or phrase of this ordinance is, for any reason, held to be unconstitutional, such decision shall not affect the validity of the remaining portions of this ordinance. The City Council of the City of Irondale hereby declares that it would have passed this ordinance, and each section, subsection, clause or phrase thereof, irrespective of the fact that any one or more sections, subsections, sentences, clauses or phrases be declared unconstitutional.

Section 4. LEGAL RIGHTS NOT IMPAIRED. Nothing in this ordinance or in the Code hereby adopted shall be construed to affect any suit or proceeding impending in any court, or any rights acquired, or liability incurred, or any cause or causes of action acquired or existing, under any act or ordinance hereby repealed as cited in this ordinance; nor shall any just or legal right or remedy of any character be lost, impaired or affected by this ordinance.

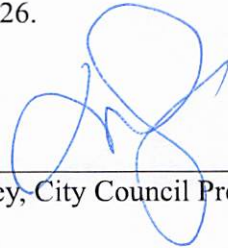

Section 5. ORDINANCE CUMULATIVE; COMPATIBILITY WITH OTHER REGULATIONS. This ordinance shall not be construed to modify or to repeal any other ordinance, rule, regulation, or other provision of law. The requirements of this ordinance are in addition to and cumulative to the requirements of any other ordinance, rule, regulation, or other provision of law, and where any provision of this ordinance imposes restrictions different from those imposed by any other ordinance, rule, regulation, or other provision of law, whichever provision is more restrictive or imposes higher protective standards for human health or the environment shall control.

Section 6. PUBLICATION OF ORDINANCE. The City Clerk of the City of Irondale is hereby ordered and directed to cause this ordinance to be published and that a copy of this ordinance be entered upon the minutes of the meeting of the City Council.

Section 7. EFFECTIVE DATE OF ORDINANCE. That this ordinance and the rules, regulations, provisions, requirements, orders and matters established and adopted hereby shall effective as of April 1, 2026, and shall continue in full force and effect from month to month and year to year from its effective date until repealed.

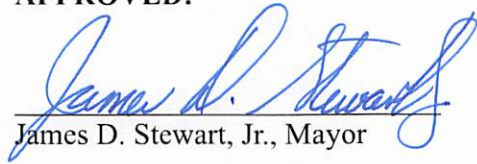

THEREFORE, BE IT ORDAINED, that the City Council of the City of Irondale does hereby ordain and enact the foregoing ordinance for the City of Irondale.

ADOPTED & APPROVED: This 3rd day of March, 2026.

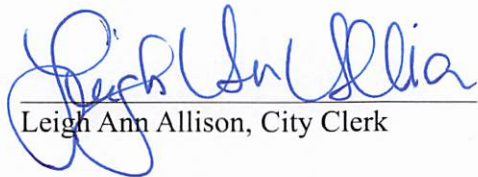

David Spivey, City Council President

APPROVED:

James D. Stewart, Jr., Mayor

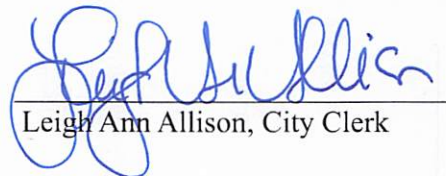

ATTESTED:

Leigh Ann Allison, City Clerk

CERTIFICATION

I, Leigh Ann Allison, City Clerk of the City of Irondale, Alabama, hereby certify the above to be a true and correct copy of an ordinance adopted by the City Council of the City of Irondale at its regular meeting held on March 3, 2026, as the same appears in the minutes of record of said meeting.

Leigh Ann Allison, City Clerk
