- If this is unsuccessful or the severity too great, then Southern Software will escalate to a Level 2 response. A Level 2 response involves a support technician connecting remotely to the customer's network using industry standard secure remote diagnostic methods to attempt to resolve the problem.
- If the problem is unable to be detected or resolved with a Level 2 response, then a technician will be scheduled for an onsite visit. There is no cost to the customer for the onsite visit as long as the problem is with a Southern Software product or equipment covered by a Southern Software support contract and as long as the problem is not due to a virus or negligent actions/treatment.
